 Radiology[^]		
X-rays, scans	85% of MBS fee	Waiting Periods mentioned above.
 Other Specialists[^]		
Ophthalmology and dermatology, other specialists.	85% of MBS fee	Waiting Periods mentioned above.

Things You Should Know

What is a Waiting Period?

A **waiting period** is the time you need to wait after purchasing your policy and before cover is available for certain medical conditions. You cannot claim for medical treatment that is provided during the waiting period.

Certain medical conditions and treatments have different waiting periods. Carefully review your policy to ensure you are aware of the different waiting periods.

What is a Pre-Existing Condition?

A **pre-existing condition** is an ailment, illness or condition, the signs or symptoms of which existed at any time 6 months prior to **your** cover commencing. This includes an undiagnosed ailment, illness or condition that was present at the time your cover commences.

For example, if you have been diagnosed with asthma within 6 months before your cover commences, this will be considered a pre-existing condition. You will need to wait the applicable waiting period before cover will be provided.

A pre-existing condition is determined by a medical practitioner, appointed by us, at the time a claim arises.

In forming an opinion, our appointed medical practitioner will refer to any information in relation to the ailment, illness or condition that your doctor provides us.

What are Out-of-Pocket Fees?

You may incur an **out-of-pocket fee** (also known as a gap fee) if the amount a medical provider charges is more than the benefit you're entitled to under your cover.

We recommend you confirm all costs with your doctor or hospital before any procedure or consult so that you are aware of all costs including any **out-of-pocket fees**.

What is the MBS fee?

The **Medicare Benefits Schedule (MBS)** is a list of medical services (e.g. a standard consultation with a GP or having surgery in hospital) subsidised by the Australian Government with a fee (known as a 'Schedule fee') for each item.

The Schedule fee is the amount the government considers appropriate for one of these services and determines the amount you receive when you make a claim.

Depending on the cover you purchase and the medical treatment for which you are claiming, we will cover either **85%** or **100%** of the MBS fee.

For example, you purchase OVHC Standard Working which includes local doctor (GP) consults. You visit a GP and are charged **\$80.00**. The MBS fee at the time for a GP visit is **\$37.50**. Under the OVHC Standard Working cover, we will cover you for **100%** of the MBS fee. You will therefore receive **\$37.50** when you claim.

Any cost above the MBS fee is considered an out-of-pocket fee (also known as a gap fee), which you will need to pay the GP directly. See **What are Out-of-Pocket Fees?** section for information.

For more information about the MBS visit www.mbsonline.gov.au.

What is the PBS?

The **Pharmaceutical Benefits Scheme (PBS)** is a list of medicines subsidised by the Australian Government.

To claim a medicine, it must:

1. Be prescribed by a doctor or other medical practitioner;
2. Be included in the PBS list if prescribed in-hospital; and
3. Cost **more** than the PBS patient co-payment. The patient co-payment fee is determined by the Department of Health and is subject to change.

The **PBS patient co-payment fee** is an out-of-pocket cost you are required to pay towards the cost of a prescription before we will calculate your benefit.

For example, you purchase OVHC Standard Working that includes Prescription Medicines. You have been prescribed a medicine from a doctor that costs **\$60**. The Government states the PBS patient co-payment is **\$39.50**. We will cover the difference between your PBS patient co-payment fee (**\$39.50**) and the total cost of the prescription medicine (**\$60**). Therefore you will receive **\$20.50** from us.

Visit <http://www.pbs.gov.au/pbs/home> to find out more information about the PBS.

What if you need to go to hospital?

Hospital Admission - Accident and emergency treatment

Many hospitals have a 24 hour accident and emergency department. Accident and emergency departments should only be accessed in case of a medical emergency. When you visit an accident and emergency department, a nurse will assess you and if your illness or injury is not deemed as an emergency, you may need to wait a long time to see a doctor.

If you have been admitted for emergency treatment, contact Allianz Global Assistance immediately on 1800 814 781.

If you have been referred to hospital for treatment on a non-emergency basis, contact the claims department on 1300 727 193 prior to admission. You will need to provide Allianz Global Assistance with the details of your treatment and hospital stay. We will then be able to confirm your cover and assist you with making arrangements for payment to the hospital.

Public Hospital Admission

Generally, OVHC covers the total cost of your stay and treatment as an in-patient in a shared ward of a public hospital. As a public patient, your doctors will be nominated by the hospital. After your hospital discharge your care will be carried out in either the out-patient clinic by one of the hospital's specialists in his/her private rooms or you will be referred to your local **doctor**. **You** may incur **out of pocket** costs for public **hospital** expenses.

Private Hospital Admission

You can choose to be treated in a private hospital. Through our relationship with Peoplecare Health Limited we have arrangements in place with most private hospitals in Australia. These hospitals ensure that an agreed schedule of fees (including in-patient accommodation, theatre and special unit accommodation fees as appropriate but not emergency department fees) are charged by the hospital and paid by Allianz Global Assistance on a member's behalf. You may incur out-of-pocket costs for private hospital expenses. There are only a few private hospitals that are not part of these arrangements. For those hospitals, we may not cover the full cost of your hospitalisation however, if you call us before you go into hospital we'll be able to tell you approximately how much it will cost you. Members who choose a non-agreement hospital may incur out-of-pocket expenses for hospital related services.

What are the Public Hospital State or Territory rates?

We will cover **100%** of the State or Territory Rate. This rate is determined by each State and Territory's health authorities for services charged to a patient who is not eligible for Medicare.

You still may incur out-of-pocket fees for some medical providers/hospitals.

What are the Private Hospital contracted rates?

We will cover **100%** of the contracted charges for all insurable costs raised by one of our agreement hospitals with a minimum of shared ward accommodation. **You** may not be covered for the costs at the accident and emergency department of a private **hospital** - cover will depend on which **hospital you** attend. Please contact **Allianz Global Assistance** before attending a private hospital to see if **you** will be covered for the costs.

Making a Claim

Once you have purchased your policy, you can claim for medical expenses (provided the expenses are not for treatment of medical conditions that are subject to waiting periods).

Online

To make a claim simply:

1. Download the OVHC claim form from our website www.allianzassistancehealth.com.au.
2. Print and complete the form.
3. Scan your completed form and any relevant attachments (e.g. receipts) and email them to ovhcclaims@allianz-assistance.com.au with your claim reference in the subject line.

It is important that you keep copies of all your invoices and receipts.

Direct Billing

For visits to your local doctor (if included in your OVHC policy), you can use our network of providers make it easier for you to claim when you visit a doctor. All you need to do is provide your valid membership card and the provider will bill us directly for the covered amount of your bill. Make sure you select a doctor or medical provider that specifies they can direct bill.

To find a doctor visit www.allianzassistancehealth.com.au/en/find-doctor.

Claims must be lodged with us within 2 years of when you received the service or treatment.
